

Magic Bio CUBE

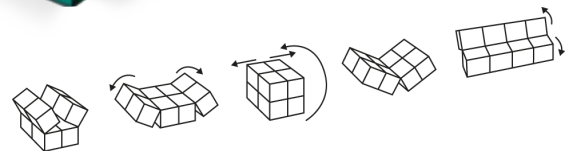

NEW!

Bio-based and
biodegradable!

A revolution in
sustainable marketing!

Q Why is the Magic BioCube so exciting?

A The BioCube is made from PHA, a material that is 100% plastic-free, bio-based and biodegradable.

Micro organisms not only create the PHA from biomatter, but break it back down into biomatter once discarded – the perfect eco cycle!

This technology is new, revolutionary and great news for our environment!

Playful & engaging with
long-term appeal

Made from bio-based and
biodegradable PHA!

Large print area for
effective communications

Augmented Reality digital
experience option
