SENSUAL PARIS

Aromatic, Citrus - Spicy

FOR WOMEN

The idea behind the **Invame Sensual Paris** fragrance is the perfect matching of the fragrance for a modern woman.

You can feel a fresh **fruity** accord and subtle **flowers** in them. However, everything is delicate enough not to break the main **citrus** play, but also strong enough to enrich the message and intrigue your nose. Fresh and light citrus tones dominate in it, after a while, striking the scent of flowers, almonds and wood chords.

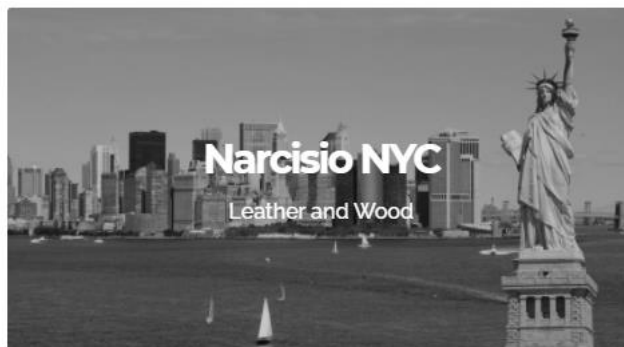

It is extremely durable and juicy. Its fresh character makes it perceptible.

NARCISO NYC

Leather and Wood

UNISEX

Narciso NYC is a very sensual composition. The smell immediately catches the nose with a large amount of woody notes.

After a sharp and characteristic opening, it tones, calms down and manners with classic wonderful lavender. Elements of ambitious wood sweetness combine with coffee. At the same time, thanks to **oak moss**, the smell becomes more dry and refers to tradition. It is characterized by strong contrasts between **noble** and **elegant** ingredients.

Not without reason **Narciso NYC** is included in the **Invame** offer in gray and black packaging. Gray and black are associated with **modernity** and **strength**.

Narciso NYC – contains notes

Top notes – bulgarian rose, gardenia.

Heart notes – lavender, coffee.

Base notes – white musk, cedar wood, amber with a slightly smoky texture.

In a word, the Narciso NYC fragrance is **TRIUMPH**.

Essential Marrakesh

Oriental, root-wood

Epic Milan

Lemongrass

ESSENTIAL MARRAKESH EPIC MILAN

Oriental, root-wood

Lemongrass

UNISEX

Essential Marakkesh by **Invame** is a very oriental classic fragrance. It smells modern, quite raw, straight, and rough.

While the admission and the first minutes have references to the aforementioned classic, the late and really long-lasting finish can be associated much more with the climate of Marrakesh. Do you need better recommendations?

It's a very well-built fragrance with a distinct and original style. It is also a composition full of contrasts that scroll throughout the projection of the fragrance. In its direct and feisty austerity and rather linear character it turns out to be the most racial fragrance of Invame.

Essential Marakkesh – contains notes

Top notes are jasmine, ylang ylang and gardenia – spices flash somewhere in the background.

Heart notes – oriental spices change the face of the composition by merging with the Lotus Flower and Black Orchid.

Base notes – patchouli and amber with a slightly smoky texture.

UNISEX

Epic Milan goes straight to the heart and testifies to an unforgettable passion that will overcome time and differences. It is a citrus bomb that lasts and lasts.

Intense for fans of fresh but original fragrances with a distinct note of spiciness. This, in turn, means that we can find threads binding them with the terms **"cold"**, **"modern"**, **"fresh"**.

EPIC MILAN – contains notes

Top notes – lively and fresh: juicy Italian citrus, wrapped in wild rosemary.

Heart notes – verbena with unusually refreshing citrus notes, Bulgarian noble rose develops rich base notes.

Base note – these precious notes of sandalwood and patchouli create a mild and sensual whole.

If you're looking for a fragrance that will give you energy in your car, **Epic Milan** will be a good choice.

TROPICAL HAWAII

Tropical Fruits

EXCELLENT SEWILLA

Juicy Apple and Cinnamon

UNISEX

The **Tropical Hawaii** car fragrance from **Invame** is an aroma highlighted by a bouquet of fragrant citruses, juicy and balsamic scents that will bring a calming, relaxing light feeling.

You can expect long-lasting fruit aromas, sweet and powdery notes that conceal the essence of bright, soft and romantic feelings.

The initial outbreak of very tart and sweet fruit in the form of lime, strawberries and oranges is irresistible and although they are fruit – we like to smell their delicious aroma.

This is a delicious smell, “yum, yum”

Immediately followed by a phase of refreshment of mint and sage like an emerging spirit from the blue lagoon of crystal clear waters. The juiciness of fruit is still madly seducing. It's really beautiful and you can't hide that fact.

Tropical Hawaii contains notes:

Top notes – The emanation of flavors and aromas of Hawaii are citruses – oranges, lime and strawberries.

Middle notes are mint and sage.

Base note – deep and warm vanilla.

This fragrance is original like the beautiful island of Hawaii – it will make traveling by car pleasant at any time of the year.

UNISEX

Excellent Seville – the car fragrance by **INVAME** surprisingly reflects family warmth, soothing harmony and peace.

It is brave, sweet, but not sugary. The perfect composition of ingredients is associated with apple sweet treat. It is a fragrance that astonishes with its complexity, like all Invame fragrances.

The beginning is unique:

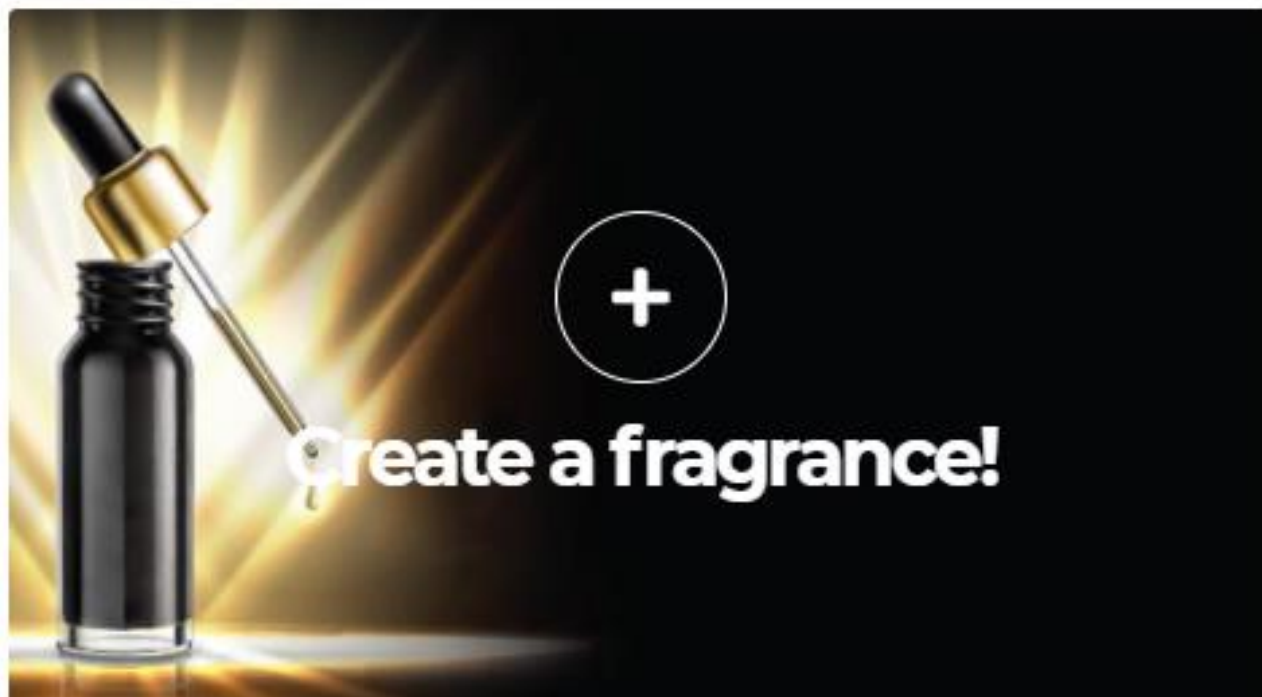

In the head, you will feel the sweet aroma of a cut juicy green apple, which contrasts with the freshness of the Brazilian orange.

In the heart you'll find cloves and ginger, which are designed to enhance the aroma of fruit. Of course, the whole does not resemble apple pie at all, but it is strongly aromatic.

In the base, of course, you can not forget about vanilla, and the wood note sounds all the time.

What makes him different?

Simplicity and titanium durability. Everything like clockwork. It's a fragrance that is like a good car – it will never let you down.
