3D MEDIA COMMUNICATING INTUITIVELY

01 MULTI-SENSORY BOOST

Every time users play with our 3D Media, it increases their brain neural activity by up to 1000% and boosts your message perception and retention.

02 PLAYFULLY GRASPING THE MEANING

The desire to play with our items generates positive emotions, openness and the willingness to get involved with your Brand. Users understand your message more quickly and remember it more positively.

03 GENERATING DESIRE

Physical interaction with an object increases appreciation and creates a desire for possession. With our 3D Media, users make your message their own. (Scientifically known as "endowment effect")

04 THE MULTIPLIER EFFECT

People like to show our amazing cubes to their colleagues and friends. They like to circulate it and talk about it, indirectly broadcasting your brand and messages through a personal recommendation.

05 LASTING IMPACT

Magic Concepts items boast an exceptionally high retention period in the field of view of their owners, who like to hold them and play with them time and again. Our studies show that this period can last more than 12 months.

06 UNLIMITED DESIGN OPTIONS

Our range offers plenty of design options. The model can be selected based on your product shape, pictures or the way you want to tell your story.
